

Trion Air Bear Media Air Cleaner Replacement Filters

AIR BEAR REPLACEMENT
FILTERS ARE DESIGNED
TO DELIVER HIGH PERFORMANCE
WITH A FOCUS ON CAPTURING
SMALL PARTICLES.

THEY ARE AVAILABLE IN MERV 11, 13
PROVIDING FLEXIBILITY FOR VARIOUS
AIR QUALITY NEEDS.

PERFORMANCE:

1. **Filtration Efficiency:** The non-woven, 5-inch thick, pleated Air Bear media filter is capable of trapping small particles, ensuring excellent air purification.
2. **Low initial pressure drop**

The Air Bear Replacement filters are ideal for users looking to improve indoor air quality with a reliable and efficient filtration system that offers flexibility in performance levels and robust construction.

MERV 11 & 13

For Air Bear, Skuttle, GeneralAire & Other Brands

Here are key features & benefits of these filters:

FEATURES:

1. **High Efficiency:** Excellent at capturing and reducing airborne particulates such as dust, pollen, mold spores, tobacco smoke, pet dander, and virus-carrying particles, significantly improving indoor air quality.
2. **Filter Frame Fingers:** These support the vertical pleats, ensuring they remain evenly spaced to maximize the filter's dirt-holding capacity.
3. **Double Gaskets:** Factory-installed on both the top and bottom, these gaskets ensure a tight fit, eliminating filter bypass and enhancing overall efficiency.
4. **Wire Mesh Support:** A galvanized rust-resistant wire mesh supports the integral filter media, maintaining pleat shape even as the filter becomes dirty.
5. **Durability:** The heavy-duty moisture-resistant filter frame retains its strength and shape even in high humidity environments, ensuring longevity and consistent performance.
6. **Compatibility:** The filter widths are designed to fit tightly in Air Bear Filter Cabinets, ensuring seamless integration.
7. **Longevity:** The filter can last up to 6 - 12 months depending on conditions, providing a long-lasting solution for maintaining clean air in your environment.
8. **Made in the USA:** Ensures quality manufacturing standards and supports local production.
9. **Fits:** Air Bear, Skuttle, GeneralAire & other brands.

MERV 8 - 3" & 5" AIR CLEANER

Description MERV 8 - 3" & 5"	Nominal Size WxHxD	Exact Size WxHxD	Part Number	Carton Qty
MERV 8 AIR BEAR REPLACEMENT	16x25x5	15 5/8 x 24 1/8 x 4 7/8	AB0851625	5
MERV 8 AIR BEAR REPLACEMENT	20x25x5	19 5/8 x 24 1/8 x 4 7/8	AB0852025	5
MERV 8 AIR BEAR REPLACEMENT	16x25x3	15 5/8 x 24 1/8 x 2 15/16	AB0831625	5

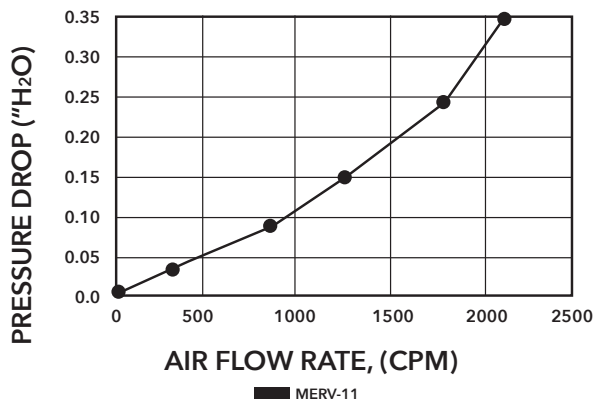

MERV 11 - 3" & 5" AIR CLEANER

Description MERV 11 - 3" & 5"	Nominal Size WxHxD	Exact Size WxHxD	Part Number	Trion Part Number	Carton Qty
MERV 11 AIR BEAR REPLACEMENT	16x25x5	15 5/8 x 24 1/8 x 4 7/8	AB1151625	259112-105	5
MERV 11 AIR BEAR REPLACEMENT	20x25x5	19 5/8 x 24 1/8 x 4 7/8	AB1152025	259112-102	5
MERV 11 AIR BEAR CUB REPLACEMENT	16x25x3	15 5/8 x 24 1/8 x 2 15/16	AB1131625	259112-101	5

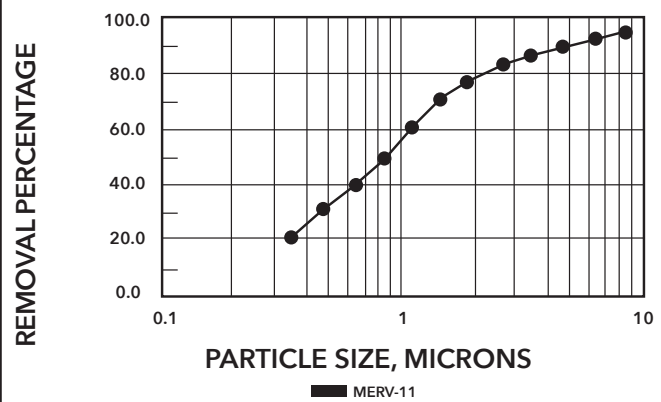

MERV 13 - 3" & 5" AIR CLEANER

Description MERV 13 - 3" & 5"	Nominal Size WxHxD	Exact Size WxHxD	Part Number	Trion Part Number	Carton Qty
MERV 13 AIR BEAR REPLACEMENT	16x25x5	15 5/8 x 24 1/8 x 4 7/8	AB1351625	266649-105	5
MERV 13 AIR BEAR REPLACEMENT	20x25x5	19 5/8 x 24 1/8 x 4 7/8	AB1352025	266649-102	5
MERV 13 AIR BEAR CUB REPLACEMENT	16x25x3	15 5/8 x 24 1/8 x 2 15/16	AB1331625	266649-101	5

MERV 11 PRESSURE DROP

MERV 11 PARTICLE SIZE EFFICIENCY

TESTING STANDARDS - ASHRAE 52.2 (MERV)

Minimum Efficiency Reporting Value (MERV) is a value expressed on a 16 point scale to reference appropriate particular matter removed in 3 different range groups. The higher the MERV rating, the greater the percentage of particles captured on each pass. This testing method is conducted at seven different airflow rates, with the final resistance being twice that of the initial resistance.
